Invitation: Seminar New frontiers in textile recycling

Date: Wednesday 19 September 2012 | 09.00 - 11.00 a.m.

At the World Solid Waste Congress (ISWA) | Florence | Italy | 17 - 19 September 2012

Everybody knows the facts: the supplies of raw materials are decreasing and prices are going through the roof. Companies and Governments are searching for new materials and recycling procedures. You are kindly invited for our seminar "New frontiers in textile recycling" to hear about the co-creation between the Governments and Textile Industry on this matter. The seminar also aims to prompt a dialogue in order to establish a fruitful collaboration between the City of Almere and the textile district Prato. The Embassy of the Netherlands in Italy supports this initiative.
