- Tamburini, E., Soana, E., Monti, M., Fano, E. A., & Castaldelli, G. (2020). Introducing Life Cycle Assessment in costs and benefits analysis of vegetation management in drainage canals of lowland agricultural landscapes. *Water* 12(8), 2236.
- Soana, E., Vincenzi, F., Gavioli, A., & Castaldelli, G. (2025) Different denitrification capacity in *Phragmites australis* and *Typha latifolia* sediments: does the availability of surface area for biofilm colonization matter? *Water*, 17(4), 560.

Call: HORIZON-MISS-2023-OCEAN-SOIL-01

(Mission Ocean & waters and Mission Soil Deal for Europe Joint demonstration of approaches and solutions to address nutrient pollution in the landscape-river-sea

Topic: HORIZON-MISS-2023-OCEAN-SOIL-01-01

SEACURE - Innovative solutions to prevent, reduce and remediate nutrient pollution along the land-river-sea system in the Mediterranean basin

Partners

The SEACURE project is led by **UVIC-UCC**, Fundacio Universitaria Balmes (ES), and its project partners are:

- EAM Departament d'Acció Climàtica, Alimentació i Agenda Rural (ES)
- L'ERA L'Era, Espai de Recursos Agroecològics (ES)
- CETENMA Asociación Empresarial Centro Tecnológico de la Energía y del Medio Ambiente de la Región de Murcia (ES)
- INGEOBRAS Ingeniería de Obras Zaragoza SL, (ES)
- UNIFE Università degli Studi Di Ferrara (IT)
- UNIPR Università degli Studi Di Parma (IT)
- BONIFICA Consorzio di Bonifica Pianura di Ferrara (IT)
