

Water Technology to reduce, re-use and improve Quality

*Paolo Romano – Chief Executive Officer
Armando Quazzo – Business Development Manager*

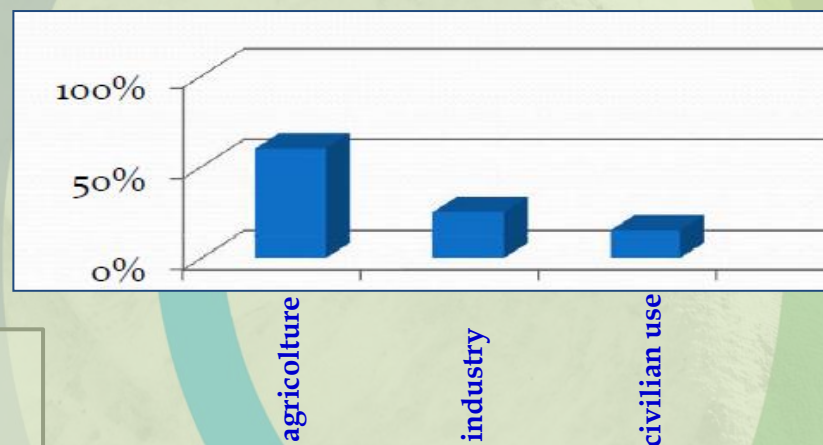

Roma, June 21st 2017

About SMAT

- Group of Companies
- About 1,000 employees SMAT plus Parent Companies)
- Served City Councils: 292
- Inhabitants: 2,275,365
- Turnover: 342,8 mio/€
- EBITDA 137,4 mio/€
- Operating income 2015: 50,4 mio/€

RE-USE AND PROPER USE

In Italy, about 60% of water is used in agriculture, 25% by Industry and 15% for domestic uses

DRINKING WATER IS MINIMALLY DRUNK!

Why not to foster the consumption of tap water, thus enhancing its minimal environmental impacts ?

DEMOSOFC

The proposed project provides for the installation of the first European industrial-scale plant to produce electricity from biogas produced during the process of water purification using solid oxide fuel cells (SOFC) with the result of getting clean energy.
